Portable, Self-build and Modular

Intelligent Exhibiting™

Stunning looks, infinite flexibility and extremely user-friendly – ISOframe Wave is the first portable display system combining the best of all worlds. Flex the entire graphic wall into the shape you need at each venue, extend and reduce as required. Choose from a vast range of functional modules such as tables, show-cases, shelving units, doors, storage rooms etc. to make your exhibition stand complete. ISOframe Wave is ideal for small and medium sized stands and perfect for the self-build exhibitor.

Key features

13' x 26,5' stand

A 12-section exhibit wall with lockable door and storage area, one showcase and one table module. The stand is completed with a rectangular counter and a 3-section ISObar reception counter in the front.

Flexi-Wave Link

The patented Flexi-Wave Link can flex 180 degrees each way in the horizontal position, yet the structure remains unbelievably strong and stable.

FASTclamp

Easy tool-free assembly with the unique, patented FASTclamp connector. No more allen keys or nuts and bolts as used on other systems.

Self-build Fabric System

Ideal for complete exhibition stands or freestanding displays, our new fabric frame system is extremely portable and with our unique FAST-clamp connector, gives a tool-free assembly. ISOframe Fabric is the fastest all-metal textile frame available.

Large Modular Reception Counters

The Mark Bric ISOframe programme now includes a modular system of large reception counters, which can be individually designed to fit any reception area or trade show stand. Straight, curved or S-shaped and with plenty of inner shelving.
